*Message from  
Managing Director*

**E**ducation is not a destination but a journey in itself that turns an entity into a human being which is the biggest need of the hour. The core purpose of education is to provide children with a learning environment which brings out the best in them. We believe that every child is endowed with a unique set of attributes and abilities, which needs to be nurtured so that they blossom. Therefore, every child deserves an education that fosters academic excellence and all-round development, and ensures their well-being. We are inspired by these tenets in everything that we do at Dr. S.S.S. Gurukul International Academy.

We, at Dr. S.S.S. Gurukul International Academy, look at children as individuals and not as a class. We groom and nourish each child independently, for all required distinct attention. We build an atmosphere where each child explores multiple activities, and experiences challenges to find his/her own strengths. Life demands a healthy and intelligent mind, with a healthy body. Our curriculum has been especially designed to make it inclusive; where physical, emotional and mental needs are equally significant. Unlike the traditional method of teaching, where the focus is on the trainer, our approach is learner-centric. We maintain a democratic and participative culture with mutual respect and appreciation for individual values. There is a constant endeavour at our end to keep ourselves at par with the ever changing environment. Various orientation workshops are held at regular intervals for teachers to absorb the vision, align with the values and take ownership for our mission and the curriculum.

The school, next to the family, takes special responsibility in equipping children with the right attitude and skills that would help them become winners. Modern infrastructure, continuous realignment of curriculum, pedagogy and committed and skilled teachers are the ingredients of Dr. S.S.S. Gurukul International Academy.

As a concerned parent, your search for an effective collaborator to attend to your child's scholastic and versatile needs concludes at Dr. S.S.S. Gurukul International Academy.

- We aim to demand a respect for property of the school from the daily materials to the school buildings grounds.
- We aim to ensure that our visual impact is important for pupils staff and the community, so litter, graffiti and damaged property have no place in our school.
- We aim to be fully committed to the positive value of praise and motivation and to make good use of reward as reorganize pupils achievements and respond with appropriate praise and reward rules for behavior are derived from the aims listed above. Most importantly, the children fully understand why we have rules and consequence for everyone if they are broken.
- The school has a code of conduct agreed by staff, governors and children and is based upon the four, take cares;
  1. Take care of yourself and others
  2. Take care of your school.
  3. Take care of your environment both locally and globally.
  4. Take care of your work and equipment.

This code of conduct, which contains a list of more specific items, is included in the school behavior police.

Our moto is to make children. "HAPPY" which means

H- Help take care of our school and everyone in it.

A- Always try to do your best and enjoy whatever you do

P- Please be kind and helpful to everyone.

P- Put others first

Y- You can make our school a happy place.

We believe it is important to have a reward system in place that recognizes all forms of social and academic achievement and efforts.
